Counseling Services

Initial Consult

- **One hour counseling session with a registered dietician**
- **A personalized review and assessment of your current eating/dietary habits**
- **Identification of nutritional goals**
- **Development of plan for accomplishing goals**

Follow-up Appointments

- **Follow-up one-on-one appointment**
- **Review current eating plan**
- **Identify what is working and what isn't**
- **Establish a plan for future goals**

Metabolic Rate Testing **MedGem™ Testing**

The MedGem™ is an innovative hand held device which measures the number of calories your body burns each day at rest; this is referred to as the **Resting Metabolic Rate** or **RMR**.

If you decide to have this test done this is what to expect:

- The test takes 5-10 minutes and you will receive your results immediately afterwards
- You will sit for the test in a relaxed environment and breathe into a mouth piece or mask for about 5-10 minutes
- The results will show your oxygen consumption known as VO₂ and your calories burned per day
- You will receive a medical report for your records
- This information will allow a dietitian to accurately tailor a nutrition program to meet individual needs

Before the Test:

- Do not eat for (4) hours prior to the test
- Refrain from consuming any caffeine for (4) hours prior to testing
- Avoid nicotine consumption for at least 1-2 hours prior to testing
- Avoid exercising for (4) hours prior to

MedGem™ Testing

- Avoid taking nutritional supplements and medication that contain ephedra, Ma Huang, or pseudoephedrine For at least (2) hours prior to the test

Initial Consult Fee

\$75.00 - \$100.00

Follow-up Appointments

\$25.00

MedGem™ testing with initial nutritional counseling

\$130.00 - \$135.00

Some Services are Billable to Insurance Companies
